

## NEON R766 ALUMINUM OXIDE

- Great for difficult-to-grind material such as aluminum, brass, bronze, stainless, carbon steel and titanium
- Good-performing, economically priced, general purpose discs
- Longer life and faster cut rate
- High-strength, lightweight & absorbs vibration
- Plastic wears away as disc grinds, allowing for full use of flap
- **Type 27 flat face:** High flap density, flexible plastic back discs
- **Type 29 conical shape:** Standard flap density

## NORTON METAL R828

- Quality zirconia alumina abrasive
- Strong engineered blend of X-wt cotton and Y-weight dark blue polyester flaps offers higher cut rate, longer life, and greater wear resistance
- Durable, fiberglass back offers strength, lightweight and absorbs vibration
- Available in both Type 29 conical for hard-to-grind materials and Type 27 flat for softer materials

## POWERBLEND™ TRIMMABLE FLAP DISC

- These premium high performance zirconia grain discs ensure fast, cool cutting action and extra long life on steel and stainless steel
- Exceptional durability - outlasts traditional resin fibre discs up to 25 times
- The raised hub and polymer backing allows the operator to "trim" away the backing as the outside contact area of the abrasive flap is worn away
- The special polymer backing will not contaminate the work piece
- Ideal for a wide range of metal fabricating and finishing operations
- Abrasive Material: Zirconia Alumina
- Type: 29

## ENDURO-FLEX™

### The one step finishing disc

- One-step finishing discs not only meet but surpass the challenges that the metal fabricating and finishing industry faces daily
- Ultra sharp and refined zirconium grain stays sharper longer to remove more material faster
- Special top coat continuously cools and lubricates the disc for smooth, vibration-free grinding and sanding from start to finish
- **With Spin-On arbor:** Will not smear or contaminate the work piece; patented backing has now even more reinforcing ribs for added safety; packing can be trimmed down easily for a customized feel
- **With 7/8" arbor:** Quiet and vibration-free grinding; complete control and total operator comfort; will not smear or contaminate the work piece; flexible backing wears down without the nuisance dust often associated with fiberglass backed discs
- Always use flange model **UG580**

## STANDARD 2 IN 1 - TYPE 29

- Standard aggressive fiber backed Zirconium
- High removal rate
- For use on steel & stainless steel
- Material: Zirconium
